CUT UP//LIBERATE

AVAILABLE MAY 10, 2005 VIA DPULSE

AN ADVANCE RELEASE AVAILABLE EXCLUSIVELY AT DPULSE-AMERICA.COM

FOLLOWING the 2004-2005 breakthrough US and European release **Perversion: For Profit** – three Top 10 indie chart singles and impressively positive reviews from the German music press following the Sony Music release – the new 3kStatic release **CUT UP//LIBERATE** surges forward with its own message in a collection of tracks that fall well outside the expectations of typical dance fare.

WITH a foundation built on a melding of junk-funk/dub and house but fueled by a post-industrial sensibility and a strong current of personal and social insurgency, the 11 tracks on **CUT UP//LIBERATE** explore new ground by revisiting past experiences – creating an identifiable sound from an assemblage of disparate elements.

OVER the past six years, 3kStatic has continued to hover under the mainstream with a sound sometimes described as ‘anarchist disco’ and highlighted by stark social sentiments, **CUT UP//LIBERATE** is both a nod to and a repulsion of commercial dance music....

CUT UP//LIBERATE includes album/CD art based on original imagery courtesy artist and electronic music pioneer **Richard H. Kirk**.

TOP LISTENING POINTS INCLUDE:

**FLIPS AND BALANCE
FREEDOM FROM EVERYTHING
SEEN THREE TIMES**

3kStatic is published by Isolation Network Electronic Music and represented for licensing by INgrooves. 3kStatic music is available on all major download services, including iTunes, MusicMatch, Rhapsody, AOL Music, Napster and Audio Lunchbox.
