< **05.20.03** - After four years of building a catalog that includes over 90 published tracks ranging from progressive house to darkwave to everything in between, the US trio **3kStatic** (Dean Capone, Michael Kilzer and Justin Katz) now arrives on the circuit with '**Drumbeat Litany**', their debut vinyl release for **dPulse Recordings** and German indie **Aural Hallucinogenix**.

Fueled by a slick infusion of funk/house sensibility from veteran underground artist and remix producer **Pacific Mile**, the **A-side** (aptly named the '**Pacific Mile Remix**') packs a soulful 6:40/137 BPM groove that has already racked up impressive national US FM radio play. The track also has been licensed for use on **MTV's** lifestyle programs '**Road Rules**' and '**The Real World**' later this summer.

Built on a foundation of junk-funk bass, hypnotic pads and neo-political undertones, '**Drumbeat Litany**' has become the breakthrough track for 3kStatic in 2003 - putting a whole new spin on the band's penchant for **Cabaret Voltaire**-influenced 'cut-up' sound techniques and post-Industrial house vibe.

With worldwide releases coming this year on **twelve** labels - including Broken Drum, Ovenready, Basiclux, Toryumon, System and others - 3kStatic and its members (Justin Katz also records solo material as both **hook the captain** and **j-punch**) stands poised at the doorway to breakout success, and '**Drumbeat Litany (Pacific Mile Remix)**' will be leading the way.

On the **B-side**, 3kStatic's Michael Kilzer emphasizes the trio's aggro alter ego with the '**Corrosive Mix**', a back-alley smackdown that jacks up metal-infused guitars offsetting an understated groove.

As the US-based sub for Germany's Aural Hallucinogenix, dPulse Recordings will service 3kStatic vinyl to clubs, radio and promoters worldwide. 3kStatic's 'Drumbeat Litany' is the first vinyl release from the label, which will also present new music from **Spies In The Wires**, **hook the captain** and others later this year.
